#### Waco Items.

Special to the Herald. Waco, Feb. 25 .- Major John E. Thomas who has the contract for grading the first ten miles of the Missouri Pacific south of Waco, arrived this morning and is making arrangements to put a large force of men to work at once. This leaves only one gap of ten miles between Hillsboro and Waco, which it is understood Hail and Multby will get. It was reported to day that Colonel Eddy, superintendent of construction on the Texas & Pacific and Missouri Pacific roads, had tele-graphed that if the bill regulating railroads now pending in the Texas legislature be-comes a law, that work will cease instanter on the Gould system of roads in Texas. Your correspondent, after diligent investiga-tion, fails to find that Colonel Eddy has made such a threat, but no secret is made of the fact that the railroad authorities regard said bill as a very unfriendly one and not calculated to encourage railroad building in Texas Even private citizens, who think some regulation of roads necessary, say this bill is altogether too stringent on the roads.

Washington, Feb. 24.-Immediately-ulter the reading of the journal, the senste received in mournful silence the announcement by Mr. Cameron, of Wisconsin, of the death of his late colleague, Matt W. Carpenter, which occurred at twenty-five minutes after 9 o'cl. ck this morning, at the residence of deceased in Washington. Mr. Cameron further stated that at some convenient time hereafter thrown from the track about 3 o'clock this the senate would be asked to consider a reso afternoon, between Longview and Gladelution commemorative of the life and publi ervice of the deceased. The senator, after expressing his own sorrow for the loss of his colleague and friend and an allusion to the profound sorrow which the people of Wis-cossin would feel in the death of their most ifted and distinguished representative, of-

fered the following: Resolved, That the senste has heard with profound sorrow of the death of Honorable Matt. H. Mr. Goode, of Virginis, offered an amendment appropriating \$200,000 for the estab-lishment at the Isthmus of Pansma of naval stations and depots of coal for the supply of

steamships of war.

Mr. Blount, of Georgia, raised the point of order that the amendment was not in continuation of any work in progess. and urged that the object was not so much to establish a coaling station, but in connection with a protectorate of the isthmus in consequence of the proposed inter-oceanic

ship canal.
Mr. Whitthorns, of Tennessee, chairman of the naval committee, replied to Mr. Blount. The Isthmus of Panama, he said, was to be possibly a future limit of the American oastwise trade, and there were mineral lands there which could be obtained now on good torms. The amendment was offered only in the interest of the navy, but in the interest of the great commercial and national interests of the country, and he warned the gentlemen not to trifle by delays or technicalities with an occasion in which the honor and interests of the country might be involved.

A long debate followed, in the course of which it was charged and densed that this amendment was a job in the interest of the Chiriqui land company, which had real es-tate on the isthmus and wanted to sell it to the government at an exorbitant rate,
Withous action on the amendment the

house flostly adjourned.
